How smaller country groups can contribute to RISM

Extracting records from a library catalogue and adding them to Muscat

How smaller country groups can contribute to RISM

- Start slowly and with "easiest" resources

- Find volunteers or students to help

- Make others aware of your needs and your successes

- Look for sources of MARC records that can be added to the RISM catalogue

Adding records to Muscat

- Locate and extract MARC records from the library catalogue
- Use MARCedit to save the file as XML
- Add/delete/change fields
- Send records to RISM to be loaded
- Check records after they are loaded

Send records to RISM

- Send the records by email unless it's a very large file

- RISM staff will load the records and inform you when the file is loaded

Check your records

- Ensure that all records are loaded

- Look at records and make any changes that you might have missed

- Let others know that records are available

Thank you!
